Task 1

a. I would prefer to develop a hybrid application and the framework as React Native.
b. These are the few frameworks mentioned below, but still there are many more:
    a. Flutter
    b. Kotlin Native
    c. Xamarin

    The reason for not choosing other frameworks is because React Native is much more easy to develop and a wide range of team members can work on it & there are other many apps made using React Native

c. To publish to the market soon
d. Trim a music and set it as a ringtone
e. Spotify, Gaana, Hungama Music
